Texas Scores Big. Did you know that an average hen can produce 250 to 300 60 TBAW eggs per year and Texas hens produce more than 5 billion eggs every year? Next time you visit the grocery store, spot the **GO TEXAN** mark—it identifies Texas products. That way you know you are eating eggs that were laid by Lone Star hens.

Spuds, which come first, the chicken or the egg? Who knows?
It is known that eggs are nutritious! They are a good source of protein, which helps you build strong muscles. Whether it's breakfast or any other meal, eggs make an excellent addition. They're delicious!
