Counselor’s Corner

Test taking season is upon us! Below are some tips for you to help your child be ready for the STAAR test.

- Ensure that your child eats a healthy breakfast the morning of the test.
- A good night’s sleep is vital in helping a student stay focused and to think clearly.
- Whether or not you like the tests, it is essential that you speak positively around your child. Encourage them and review test taking strategies with them. A little positivity from a parent can make a huge difference in a child’s outlook about school.
- Speak with your child’s teacher about ways that you can help them prepare for their test.
- Allow your child to practice using their higher order thinking skills at home. Puzzles, mind-games, or even helping you put together a grocery list can be beneficial. These types of activities build confidence and encourage independence, which in turn can help a student figure things out on the STAAR test.

May Events
